Referring to attached letter for proof

oldest son living age 36 years. I inser-
-ted the names of all of our family in
pages of "births & deaths" in our family
Bible when we first purchased same
twenty two years ago in 1872 and I
registered all since that time of
"Births & Deaths" and I am certain
that the date of birth of Margaret

and copied from our family record
Feb'y 27 1880. of this I am very positive
though if the widows statement (being
dead) should be considered best make
it 17th Feb'y 1880. I was with her when
she made her application for Pension
and I know that she gave the date
of birth ^{of children} from memory as she had no
record with her and we did not
have the record near at that time to
examine as it was at the time as

Sworn Sta Erie Co Pa and she
was at my house in Erie Pa and
went from there to S T Kerley's office
These facts I distinctly remember
there are none of the parties now
living that were present at the
birth and thus it will be
impossible to furnish ^{proofs} different

Date of examination,

1885

WE HEREBY CERTIFY that in compliance with the requirements of the law* we have carefully examined this applicant, who claims that while in the service of the United States at or near a place named

Petersburg Va, and while in line of duty, on or about the

day of March & April, 1864, he incurred injury of left side by stepping

into a hole at night striking his left side on a stump & in March

1865 incurred diarrhoea together with Rheumatism

and that in consequence thereof he is totally disabled for earning his subsistence by manual labor

His pulse-rate is 58 per minute; his respiration 21; his temperature 98.10

his height is 5 feet and 8 1/2 inches; he weighs 130 pounds, and states that he

is 36 years of age.

Touching the cause and degree of the disability for which he claims a pension, he makes the following

statement: In March or April, 1864 he was injured in the left

side by stepping into a hole at night and striking his

left side on a stump. This at Petersburg Va

On the Schaler's Creek Va in March 1865 was

attacked with Diarrhoea which has troubled him

more or less ever since

In the Winter of 1865 at Johnsons Island Ohio while

guarding Rebel prisoners was attacked with Rheumatism

which has troubled him ever since

At Gallets station after an engagement in the Winter

of 1864 he discovered that there was loss of hearing

and he has been troubled ever since

The examination reveals the following objective facts in support of his statements:

His general appearance shows that he is poorly

nourished; skin flabby and dry; muscles atrophied

and relaxed, especially in the front of the chest;

tongue very much fissured; stomach tender and

very much contracted. Bowels normal as to size; liver normal

spleen normal; abdomen normal. Rectum thick-

ened and irritable - Slight impairment of motion

of right elbow joint - Slight impairment of

motion of all the joints of the legs. Measure-

ments of thighs and legs at corresponding points

the same. Measurements of arms at corresponding

points the same.

From the existing condition and the history of this claimant, as stated by himself, it is, in our judgment,

probable that the disability was incurred in the service as he claims, and that it has

not been aggravated or prolonged by vicious habits. He is, in our opinion, entitled to a

rating for the disability caused by Diarrhoea, and for that caused

by Rheumatism, and for that caused by heart trouble,

1/4 for Deafness, 1/6 for total, 1/8 for partial, 1/8 for heart trouble,

the sum of which aggregates 1/2 of Third Grade

Very respectfully,

Geo. B. Ransom

When did you first see claimant after he returned from the army, and how do you fix the date?

Answer: I should say within a day or two after his return from the army in Aug. 1865 - see the other (attached) sheet -

Of what disability did he complain, and how was he affected?

Answer: of Chronic Alacmia - seemed utterly prostrated,

How frequently have you seen him since your first acquaintance?

Answer: see attached sheet

If he has continued to suffer with such disability, please describe the symptoms which were apparent to you, and state to what extent he has been disabled for manual labor thereby during each year?

Answer: see attached sheet

My means of knowing the facts of the case are these:

COMMISSIONER OF PENSIONS,
 Washington, D. C.

Very respectfully,

Rufus L. Perkins

Samuel Brown named in the attached document
became known to me perhaps 35 years ago and
was in my employ for several years. He was living
with his family in a house belonging to us
at the time he went into the army. His family
remained in it during his absence & he found
them there when he returned in 1865. This house
was only a few rods from my office & I passed
it several times a day in going to & from my
own dwelling. His discharge is dated July
13. 1865 & while I cannot recollect positively
I must have seen him almost immediately after
his return, say early in Aug. My father was a
physician living near me & he was in the habit
of looking after any who might be sick
among my men & their families (I had a large
number of men in my employ). Brown tells me that
Father came to see him the next day after his return
& tells me the medicine he was ordered to get &
from this I know that his complaint must have
been an affluetion of the Bowels such as he describes.

He remained in my House until sometime in 1866
when he to a place in which he has remained
some time perhaps $3\frac{1}{4}$ miles from my house,
for several years. While I remained at Manchester
Fairview. I must have seen him very often.
~~Since~~ Since I came into the City to live I have
seen him occasionally. From my own personal
observation - from what he & his wife have
repeatedly told me, & from the concurred
testimony of his neighbors, who have known
him all these years, & who have had every op-
portunity of knowing all about him as to
his physical condition & health & ability to
work, I think I am warranted in saying that
he has presented the appearance of, and has
nearly been a broken down man for twenty
five years - & is comparable with the man who
went into the army at the age of 37 strong
as an ox, is now a mere wreck. He was
never dissipated - & in all these years, has had
no acute sickness - The wreck I believe to be
the result of exposure in the army. The chronic
trouble in his bowels has now been cured entirely.

and he has suffered all the time more or
less from Rheumatism induced by the same
Cause.

I think Brew is a thoroughly honest man
& any statement he has made or may make
can be relied upon as believed by him to
be true.

Very Respectfully

Rufus L. Perkins

All the facts in possession of affiant as to the origin and continuance of the disability should be fully set forth, and the dates of treatment should be specifically given. If the affidavit is prepared from memoranda in possession of the physician, that fact should be stated.
